

daisyeyes handmade

a hand embroidery pattern

Dear Stitcher,

I am so excited that you have picked up this pattern to stitch! There is nothing I love more than to hold a needle and thread in my hands and I hope that this pattern brings you a sense of that joy yourself. This pattern is designed for all levels of embroiderers and is perfect for beginners! I suggest reading through all the directions before getting started - don't forget to follow the links to video instructions too! In the pages that follow you will find: a complete stitch guide with color suggestions, all the templates you need to make your doll, a complete tool list and complete instructions. So grab a cup of tea, find a cozy spot and get stitching!

With gratitude and blessings,

aimee

Stitchy Notes

PREPARING YOUR PATTERN

You can print your pattern sheet directly onto Sulky Stick 'n Stitch™ if desired. Use the pattern on the last page to print onto the Stich n Stitch, then lay out the full printed sheet onto your white cotton fabric and get stitching!

If you desire to trace each pattern, I recommend Clover fine point water soluble pens. Find a bright spot and placing your pattern under your fabric, use your pen to trace. Make sure you leave a good space around each ornament for cutting out.

FINISHING UP

After you stitch each pattern, take some white thread and using a RUNNING STITCH, stitch a circle about a half dollar size around each ornament design. Make sure to leave a good thread tail on both ends.

Take your 3 piece mini wooden embroidery hoops, and using the thicker circle, place this behind your embroidery, making sure to put your design in the center. Then pull the thread tails to gather your ornament around the wooden disc. Pull these tightly and you can knot the tails together if desired. Take your wooden ring and place that around the wrapped disc and tighten gently with a screw. Once all your designs are complete, use a good craft glue or hot glue gun to glue on the backing disc.

Use your bakers twine and cut about 10 inch lengths and run them through the screw bolt in the hoop and tie a knot to finish your ornament.
