

Sulky 2MM and 3MM Puffy Foam adds flair, 3-dimension and excitement to computerized embroidery, free-motion and machine satin stitches. It perforates cleanly when stitched through and makes the stitching stand well above the fabric. It comes in 12 colors in an assorted package that contains one 6" x 9" piece of all 12 colors, or in a 3 Pk. of a chosen color. Layers can be stacked to make the thicknesses you desire, or whatever will fit under your presser foot. **This is not "craft" foam.** This is high-quality machine-embroidery foam that is designed for use on home and industrial sewing machines.

Get all of the colors you need in one package when you buy the Puffy Foam Assortment!
